TechnoPOS has been specifically designed to allow the best possible synchronization between your business and your WooCommerce online store.

Whether you already have your shop or are looking for a partner to create one, TechnoSolutions CL is your reference. Contact us for more information on the TechnoSolutions CL Ecommerce Module and how to get it started.

**The prerequisites are:**

✔    • Have a WooCommerce shop

✔    • Have an SSL security certificate (HTTPS)

✔    • Have access to create an API key

**The synchronized information is as follows:**

From TechnoPOS to WooCommerce:

- Products
- Quantities
- Images
- Categories
- Promotional prices
- Variations
- Attributes (tags)
- Inventory changes

From WooCommerce to TechnoPOS:

- Sales (With integrated online sales report)
- Accounts receivable are created automatically
- Delivery addresses
- Products
- Quantities
- Images
- The categories
- Variations
- Attributes (tags)

You can change the status of WooCommerce sales directly from TechnoPOS without the need to log in to your Website Administration.

The entire real-time update process is automated and you can change the settings directly through your access to the TechnoSolutions CL web console.

Do not hesitate to contact us for any information, for a visit to our offices or for a demonstration of TechnoPOS's capabilities.

Thank you and see you soon!
